

Change Proposal – F40/01	CP No: 968 Version No: 1
Title <i>(mandatory by originator)</i> Addition of an 'Event Indicator' to the D0155	
Description of Problem/Issue <i>(mandatory by originator)</i> Include a reason code on the D0155 'Notification of Meter Operator or Data Collector Appointment and Terms' data flow to notify the recipient of this data flow why the data flow has been sent. This change corresponds with MRA DTC CP3212.	
Proposed Solution(s) <i>(mandatory by originator)</i> See appendix 1 (DTC CP3212).	
Justification for Change <i>(mandatory by originator)</i> Under the New Connection and Change of Measurement Class processes, a D0155 'Notification of Meter Operator or Data Collector Appointment and Terms' is sent to Supplier Agents. These agents generally do not know the circumstances under which they have been sent this data flow. In these cases, the Supplier Agents need to know why they have been sent the D0155 data flow so they can identify what other data flows to expect, in what timescales and what other obligations they have to carry out.	
Configurable Items Potentially Affected by Proposed Solution(s) <i>(optional by Originator)</i> BSC SVA Data Catalogue.	
Impact on Core Industry Documents <i>(optional by originator)</i> The D0155 flow in the MRA DTC is impacted.	
Related Changes and/or Projects <i>(mandatory by BSCCo)</i>	

Change Proposal – F40/01

CP No: 968

Version No: 1

Requested Implementation Date (*mandatory by originator*)

26 February 2004

Reason:

To align with an appropriate release of the DTC.

Agreed Release/Implementation Date (*mandatory by BSCCo*)
