Change Proposal – F40/01 (Page 1 of 2)	CP No: 874 *(mandatory by BSCCo)*

Title *(mandatory by originator)*

Include the 'Meter Type' data item within the BSC SVA Data Catalogue.

Description of Change *(mandatory by originator)*

Include the 'Meter Type' data item within the BSC SVA Data Catalogue to reflect that contained within the Data Transfer Catalogue (DTC) (Version 7.3) and that proposed for inclusion within the DTC via DTC CP3157 (Amend both the Meter Type (J0483) Valid Set and the entry in Annex C for the population of the D0150)).

This CP supersedes CP760 (Identification of Prepayment Meters within the D0150 'Non-Half Hourly Meter Technical Details' dataflow) which was approved by SVG on 9 July 2002 (SVG/18/222) for implementation on 28 November 2002.

Proposed Solution(s) *(mandatory by originator)*

Define the data item 'Meter Type' and include it within the D0150 'Non-Half Hourly Meter Technical Details' dataflow. Attached are the proposed changes to the BSC SVA Data Catalogue.

Justification for Change *(mandatory by originator)*

This CP ensures that the BSC SVA Data Catalogue remains consistent with the DTC.

Other Configurable Items Potentially Affected by Proposed Solution(s) *(optional by BSCCo)*

None.

Impact on Core Industry Documents *(optional by originator)*

MRA DTC CP3157 (Amend both the Meter Type (J0483) Valid Set and the entry in Annex C for the population of the D0150)).

Related Changes and/or Projects *(mandatory by BSCCo)*

This CP supersedes CP760 (Identification of Prepayment Meters within the D0150 'Non-Half Hourly Meter Technical Details' dataflow).
