Change Proposal – F40/01 (Page 1 of 3)	CP No: 617 *(mandatory by BSCCo)*

Title *(mandatory by originator)*

Changes to the Reporting Catalogue to bring it in line with v1.1. of the BSC

Description of Change *(mandatory by originator)*

See NCR387 attached.

Version 1.1 of the BSC was issued on 16th March 2001, which contained some changes to Section V. Specifically the requirements for NGC to report certain data items up to five days ahead was removed and replaced with the requirement to report these values up to one day ahead. The Reporting Catalogue was not updated to reflect the changes to the Code.

Proposed Solution(s) *(mandatory by originator)*
The specific changes to the Reporting Catalogue are detailed in NCR358 attached.

Justification for Change *(mandatory by originator)*
Removes an inconsistency between Section V: Reporting and the Reporting Catalogue (a Code Subsidiary Document).

Other Configurable Items Potentially Affected by Proposed Solution(s) *(optional by BSCCo)*

Impact on Core Industry Documents *(optional by originator)*
None

Related Changes and/or Projects *(mandatory by BSCCo)*

NETA Programme Change Request Form			
Change Request ID: NCR387			
Change Request Name: Changes to the Reporting Catalogue to bring it in line with v1.1. of the BSC	***Priority***		
	~~Critical for Go live~~	~~Desirable for Go Live~~	**Not needed for Go Live**
Identified By: Jackie Moran	**Date Submitted: 2**2/3/01		

Description of Proposed Change:

Version 1.1 of the BSC was issued on 16th March 2001, which contained some changes to Section V. Specifically the requirements for NGC to report the following data items (1-5 below) up to five days ahead was removed and replaced with the requirement to report these values up to one day ahead:

1. Day ahead National Demand forecast: value for each half hour

2. Day ahead National Indicated Generation (INDGEM) and Demand (INDDEM) forecast: value for each half hour

3. Updates of day ahead Indicated Imbalance (IMBALNGC), INDGEM, INDDEM and NGC Demand forecast (DF): values for each half hour or each remaining half hour in day D

4. Day ahead Indicated Margin (MELNGC): values for each half hour

5. Update of MELNGC: values for each half hour or each remaining half hour in day D

The Reporting Catalogue therefore needs to be changed in paragraphs 2.1 (c), 2.1 (d) and 2.1 (e) to replace the requirement to report these values for the data items mentioned in 1-5 above from 'D-1, D to D+5' with the requirement to report these values for 'D-1, D to D+1'.

Reason for Proposed Change (Benefits) and/or Implications of not making the Change:

To undertake amendments to the Reporting Catalogue consequent upon changes made to Section V of the BSC (embodied in version 1.1. of Section V of the BSC).

Initial Recommendation to Programme Exec:	**Final Recommendation to Programme Exec:**
