<b>NETA Programme Change Request Form</b>			
<b>Change Request ID: NCR303v2</b>			
<b>Change Request Name:</b>		<b>Priority</b>	
BSCP32 – Consultation Comments		Critical for Go live	Desirable for Go Live
		<b>Not needed for Go Live</b>	
<b>Identified By:</b> Ann McNaughton / John Cunningham		<b>Date Submitted: 08.01.01 updated 14.02.01</b>	
		<b>Received by CDA: 26-02-01</b>	
<b>Description of Proposed Change:</b>			
<b>A Transfer of Metering Dispensation</b>			
Section 3.4: To be expanded to cover the application process to transfer metering dispensations for both CVA and SVA metering systems. See Attachment 1			
<b>B Not needed for Go live</b>			
Sections 1.10, 4.1, 4.3, BSCP32/4.1a, BSCP32/4.1b, BSCP32/4.3a, BSCP32/4.4, BSCP32/4.5: Redlining in section 1.1 has changed “commercial boundary” to “Boundary Point or Systems Connection Point”. These amendments should be made to the sections identified throughout the document.			
Section 1.11: The comma after the second occurrence of “Equipment” should be removed.			
Forms 4.1a and 4.3a: It is not clear what is being requested in the “Dispensation against the requirements in relation to the commercial boundary set out in the BSC” or the “BMU Configuration” spaces on the form. Add (Y/N) box as appropriate.			
Forms 4.1ab and 4.3b: The declaration statement should include the words “and BSC” at the end of the first sentence.			
Form 4.4: This form should include the application reference number as allocated by BSCCo.			
Form 4.5: Replace “Pooling and Settlement Agreement” with BSC. DRA appears on this form, which should either be replaced or explained in section 2.1.			
<b>Reason for Proposed Change (Benefits) and/or Implications of not making the Change:</b>			
Comments received from Scottish Power during BSCP consultation on Version 1.1, changes omitted from Version 2, it was agreed with Scottish Power that the comment in Section A was implemented prior to Go-Live and Section B comments would be included when the procedure is next updated.
