**Title** *(mandatory by originator)*
Ability to change registration details for Party Agents (including de-register)

**Description of Change** *(mandatory by originator)*
The current version of BSCP71 allows for ECVNA or MVRNA to register in the first instance. It does not, however, allow for change of details or for de-registration.

**Proposed Solution(s)** *(mandatory by originator)*
1. To add a process to BSCP71 to recognise registration changes.
2. To allow de-registration as a sub-activity of registration change (by setting a particular effective to date.)
3. To provide a modified registration form which will allow appropriate information to be captured.

**Justification for Change** *(mandatory by originator)*
There is currently no process for changing registration details for ECVNA or MVRNA. One is required to support normal market activity.
