

Approval of new Code Subsidiary Document - BSCP509 Appendix 2

Meeting Name BSC Panel 219

Meeting Date 12 December 2013

Purpose of paper For Decision

Summary The Supplier Volume Allocation Group (SVG) recommend that the Panel approve a new Code Subsidiary Document; BSCP509 Appendix 2, and that the authority to approve subsequent changes to BSCP509 Appendix 2 is delegated to the SVG.

1. Background

- 1.1 BSC Procedure (BSCP) [509](#) 'Changes to Market Domain Data' sets out the process steps and timescales for submitting, progressing and obtaining the approval of changes to Market Domain Data (MDD).
- 1.2 The [MDD Handbook](#) is a guidance document that provides:
- An overview of the role of MDD in the electricity market;
 - Guidance on how to prepare and submit changes to MDD;
 - Descriptions of the different MDD entities, the constraints on data input into MDD and the validation rules that apply to MDD changes; and
 - Explanations of the Impact Assessment and publication processes associated with MDD.

2. CP1396 'Clarifications and formalising scenarios for the BSCP509 Market Domain Data Change Request Process'

- 2.1 [CP1396](#) was approved by the Supplier Volume Allocation Group (SVG) on 5 November 2013 ([SVG153/03](#)) for implementation as part of the February 2014 Release. It clarifies the requirements of all parties involved in changing MDD when completing and submitting MDD Change Requests.
- 2.2 Part of the CP1396 solution will convert the MDD Handbook into a new Code Subsidiary Document; BSCP509 Appendix 2. BSCP509 will then be amended to provide cross-references to the information in the new Appendix 2, to ensure that participants provide all the necessary information when raising a MDD Change Request.

3. What does the Panel need to do?

- 3.1 The SVG's Terms of Reference only permit it to amend Code Subsidiary Documents, not to create new Code Subsidiary Documents. That responsibility remains with the Panel.
- 3.2 Therefore the SVG unanimously recommend to the Panel that BSCP509 Appendix 2 is approved as a new Code Subsidiary Document and added to the BSC Baseline Statement so that the solution to CP1396 can be fully implemented.
- 3.3 The Panel are also requested to delegate the authority to approve subsequent changes to BSCP509 Appendix 2 to the SVG, as it already has delegated authority for approval of changes to BSCP509.

4. Recommendations

- 4.1 We invite you to:
 - a) **APPROVE** BSCP509 Appendix 2 'MDD Change Request Entity Validation' as a new CSD and that it is added to the BSC Baseline Statement; and
 - b) **DELEGATE** the authority to approve subsequent changes to BSCP509 Appendix 2 to the SVG.
