

4.3 CP Form

Change Proposal – BSCP40/02	CP No: 1431 <i>Version No: 1.0</i> <i>(mandatory by BSCCo)</i>
Title (mandatory by originator) Extend Site Check Exemption to Measurement Classes F and G	
Description of Problem/Issue (mandatory by originator) BSCP502 ‘Half Hourly Data Collection for SVA Metering Systems registered in SMRS’ section 4.1.8 ‘Site Checks of SVA Metering System - Site Visit Report’ sets out the requirements for Half Hourly (HH) Data Collectors (DCs) to carry out site checks of HH Metering Systems when visiting the site. BSCP502 section 4.1.8 exempts sites that are traded in Measurement Class E from this requirement, though there is an expectation that Suppliers will arrange for the inspection of these Meters in accordance with provisions 12.14 – 12.16 of the Standard Conditions of the Electricity Supply Licence. Under Approved Modification P300 ‘Introduction of new Measurement Classes to support Half Hourly DCUSA Tariff Changes (DCP179)’, Measurement Class E is in effect being split into three Measurement Classes for non-100kW metered sites. At the time of progressing P300, changes to BSCP502 to extend the exemption to Measurement Classes F and G were not identified.	
Proposed Solution (mandatory by originator) This CP proposes to extend the exemption in BSCP502 section 4.1.8 to include Measurement Classes F and G.	
Justification for Change (mandatory by originator) This CP will align the provisions of BSCP502 with the requirements being introduced under P300 to ensure efficiency of the Balancing and Settlement arrangements.	
To which section of the Code does the CP relate, and does the CP facilitate the current provisions of the Code? (mandatory by originator) Section S Supplier Volume Allocation Section S Annex S-2 Supplier Volume Allocation Rules	
Estimated Implementation Costs (mandatory by BSCCo) One ELEXON man day of effort to implement the redlined BSCP changes, equating to £240.	

<p>Configurable Items Affected by Proposed Solution(s) (mandatory by originator)</p> <p>BSCP502 ‘Half Hourly Data Collection for SVA Metering Systems registered in SMRS’</p>
<p>Impact on Core Industry Documents or System Operator-Transmission Owner Code (mandatory by originator)</p> <p>None identified</p>
