Formatted Table

Deleted: (Salesforce Id)

Import MSID

Description:	The unique market wide reference for an Import Metering System within a MSID Pair
Units	None
Valid Set:	Obtained from/allocated by the appropriate LDSO
Domain:	Identifier
Logical Format:	INT(13)
Default Value:	Not required

Acronym

Notes:

Export MSID

Description:	The unique market wide reference for an Export Metering System within a MSID Pair
Units	None
Valid Set:	Obtained from/allocated by the appropriate LDSO
Domain:	Identifier
Logical Format:	INT(13)
Default Value:	Not required

Acronym

Notes:

Effective From Settlement Date {MSIDP}

Description:	The first inclusive calendar date from which a MSID Pair is allocated to a BM Unit
Units	None
Valid Set:	A valid date within the constraints of the format
Domain:	Effective Date
Logical Format:	DATE
Default Value:	Not required

Acronym

Notes:

Effective To Settlement Date {MSIDP}

Description: The last inclusive calendar date from which a MSID Pair is allocated to a BM Unit

Units   None

Valid Set: A valid date within the constraints of the format

Domain: Effective Date

Logical Format: DATE

Default Value: Not required

Acronym Notes:

Import MSID Customer Consent Flag

Description: Denotes whether or not the Customer has given consent for Settlement to share Delivered Volumes with their Supplier for an Import MSID

Units   None

Valid Set: T meaning True, the Customer has given consent
F meaning False, the Customer has not given consent

Domain: Indicator

Logical Format: BOOLEAN

Default Value: F

Acronym Notes:

Effective From Settlement Date {ICCF}

Description: The first inclusive calendar date from which a Customer has given consent for Settlement to share Delivered Volumes with their Supplier for an Import MSID

Units   None

Valid Set: A valid date within the constraints of the format

Domain: Effective Date

Logical Format: DATE

Default Value: Not required

Acronym Notes:

Effective To Settlement Date {ICCF}

Description:	The last inclusive calendar date from which a Customer has given consent for Settlement to share Delivered Volumes with their Supplier for an Import MSID
Units	None
Valid Set:	A valid date within the constraints of the format
Domain:	Effective Date
Logical Format:	DATE
Default Value:	Not required

Acronym Notes:

Export MSID Customer Consent Flag

Description:	Denotes whether or not the Customer has given consent for Settlement to share Delivered Volumes with their Supplier for an Export MSID
Units	None
Valid Set:	T meaning True, the Customer has given consent F meaning False, the Customer has not given consent
Domain:	Indicator
Logical Format:	BOOLEAN
Default Value:	F

Acronym Notes:

Effective From Settlement Date {ECCF}

Description:	The first inclusive calendar date from which a Customer has given consent for Settlement to share Delivered Volumes with their Supplier for an Export MSID
Units	None
Valid Set:	A valid date within the constraints of the format
Domain:	Effective Date
Logical Format:	DATE
Default Value:	Not required

Acronym Notes:

© ELEXON Limited 2019

Effective To Settlement Date {ECCF}

Description:	The last inclusive calendar date from which a Customer has given consent for Settlement to share Delivered Volumes with their Supplier for an Export MSID
Units	None
Valid Set:	A valid date within the constraints of the format
Domain:	Effective Date
Logical Format:	DATE
Default Value:	Not required

Acronym

Notes:

MSID Pair Rejection Reason

Description:	The reason that a MSID Pair Allocation has been rejected
Units	None
Valid Set:	
Domain:	Text
Logical Format:	CHAR(100)
Default Value:	Not required

Acronym

Notes:

Delivered Volume

Description:	A derived value of the total delivered volume resulting from an instructed Balancing Action
Units	MWh
Valid Set:	Any within the constraints of the format
Domain:	Wholesale Energy
Logical Format:	NUM(13,4)
Default Value:	Not required

Acronym

Notes:

Delivered Volume Rejection Reason

Description: The reason that a MSID Pair Delivered Volume has been rejected
Units   None
Valid Set:

Domain: Text
Logical Format: CHAR(100)
Default Value: Not required

Acronym
Notes:

Delivered Volume Exception Reason

Description: The reason that a MSID Pair Delivered Volume has had an exception raised
Units   None
Valid Set:

Domain: Text
Logical Format: CHAR(100)
Default Value: Not required

Acronym
Notes:

Disputed status

Description: The description of the progress in the disputed MSID process
Units   None
Valid Set: In Progress, Closed, ELEXON Review

Domain: Text
Logical Format: CHAR(100)
Default Value: Not required

Acronym
Notes:

Disputed Reason

Description:	The rationale for raising the disputed MSID process
Units	None
Valid Set:	Full Allocation, Allocation Dates
Domain:	Text
Logical Format:	CHAR(100)
Default Value:	Not required

Acronym

Notes:

Disputed Detail

Description:	The detailed rationale for raising the disputed MSID process
Units	None
Valid Set:	
Domain:	Text
Logical Format:	CHAR(255)
Default Value:	Not required

Acronym

Notes:

MSID Pair Id

Description:	The unique reference for an MSID Pair generated by BSC Systems when the MSIP Pair is raised, which should be used by the Virtual Lead Party or Supplier for all relevant transactions
Units	None
Valid Set:	
Domain:	Identifier
Logical Format:	CHAR(18)
Default Value:	Not required

Acronym

Notes:

Delete Flag

Description:	Denotes whether a MSID Pair should be deleted
Units	None
Valid Set:	T meaning True, the MSID Pair should be deleted
	F meaning False, the MSID Pair should not be deleted

Domain: Indicator
Logical Format: BOOLEAN
Default Value: F

Acronym
Notes:

Secondary Half Hourly Delivered (non-losses)

Description: A value of the Delivered Volume derived for a MSID within a MSID Pair in a
                     Settlement Period
Units   MWh
Valid Set: Any within the constraints of the format

Domain: Wholesale Energy
Logical Format: NUM(13,4)
Default Value: Not required

Acronym
Notes:

Secondary Half Hourly Delivered (losses)

Description: A value of the losses associated with the Delivered Volume derived for a MSID
                     within a MSID Pair in a Settlement Period
Units   MWh
Valid Set: Any within the constraints of the format

Domain: Wholesale Energy
Logical Format: NUM(13,4)
Default Value: Not required

Acronym
Notes:

Secondary Half Hourly Consumption (non-losses)

Description: A derived value of MSID metered volumes for a MSID in a Secondary BM Unit in
                     a Settlement Period
Units   MWh
Valid Set: Any within the constraints of the format

Domain: Wholesale Energy
Logical Format: NUM(13,4)
Default Value: Not required

Acronym
Notes:

Secondary Half Hourly Consumption (losses)

Description: A derived value of the losses associated with MSID metered volume for a MSID in a Secondary BM Unit in a Settlement Period

Units   MWh

Valid Set: Any within the constraints of the format

Domain: Wholesale Energy

Logical Format: NUM(13,4)

Default Value: Not required

Acronym

Notes:

Secondary BM Unit Supplier Demand Volume

Description: A derived value of the total metered volume delivered by a Secondary BM Unit in a Settlement Period

Units   MWh

Valid Set: Any within the constraints of the format

Domain: Wholesale Energy

Logical Format: NUM(13,4)

Default Value: Not required

Acronym

Notes:

Secondary BM Unit Supplier Delivered Volume

Description: A value of the total Delivered Volume derived for a Secondary BM Unit for each relevant Supplier BM Unit in a Settlement Period

Units   MWh

Valid Set: Any within the constraints of the format

Domain: Wholesale Energy

Logical Format: NUM(13,4)

Default Value: Not required
