CONTENTS

1. Introduction

1.1 Purpose and Scope of the Procedure

The purpose of this procedure is to enable Parties and Party Agents to select those reports that they require, to request additional reports and to allow Parties and Party Agents to authorise other Parties and / or Party Agents to receive their confidential reports.

By default a Party or Party Agent receives the latest versions of all reports relevant to them, listed in Section V of the Code. If a Party or Party Agent only requires a sub-set or older versions of these reports this procedure is used to instruct the relevant BSC Agent. This is described in Section 3.1.

This procedure also defines how a Party may request to receive another Party's reports, where Section V defines the report as available to "Any Party on request". This is described in Section 3.1.

In addition a Party may request to receive another Party's confidential reports by seeking permission from the Relevant Party. This is described in Section 3.2.

Transmissions and retransmissions of reports that have already been produced are outside the scope of this procedure and should be handled by a request to the ~~relevant BSC Agent help desk~~BSC Service Desk.

Where a Party has access to the Self-Service Gateway and an equivalent online form is provided, the Party may use the online form as an alternative to the paper forms defined in this BSCP.

Where a Party has provided data using the Self-Service Gateway, BSCCo may use the service to validate and confirm the input data or to request additional data. Where this is the case, these online transactions will represent a valid equivalent to the transactions defined in this BSCP.

Please note that there will not always be a one-to-one equivalence between the data collected via the Self-Service Gateway and the paper forms defined in this BSCP. For example, data collected in one paper form, may be collected by more than one online form. Conversely, a single online form may collect data from more than one paper form.

All references to the provision of information using BSCP forms in this Procedure, should be construed as provision either by a paper form or via the Self-Service Gateway. References to the CRA, including checks performed by the CRA, may include the Self-Service Gateway as applicable.

1.2 Main Users of the Procedure and their Responsibilities

The main users of this procedure are:

- Parties & Party Agents, to request changes to their reporting requirements and request additional reports;

- BSCCo, to endorse the circulation of confidential reports to other Parties and / or Party Agents and to instruct the Central Registration Agent of the revised reporting requirements;

- Central Registration Agent (CRA) and Energy Contract Volume Allocation Agent (ECVAA), to receive and respond to report requests;

- Other BSC Agents, to deliver the reporting requirements of Parties and Party Agents as instructed by the Party, Party Agent or BSCCo, as appropriate; and

- Parties and Party Agents requesting reports should be authorised in accordance with BSCP38 Authorisations.

1.3 Key Milestones

Throughout this procedure the key milestones are referred to in relation to numbers of Working Days (WD), unless specified otherwise.

Changes to Party and Party Agent requirements are amended on an on-going basis. The key milestones for Parties and Party Agents are:

- Changes to Individual Reporting Requirements: To amend individual report requirements the Relevant Parties must use the Self-Service Gateway or notify the CRA, who will update the database within 3WD of the report request being received;

- Confidential Report Requests: Where a Party or Party Agent agrees for a confidential report to be circulated to a Requesting Party / Party Agent, BSCCo will notify the CRA 5 WD prior to the report being made available; and

- Extended Forward Contract Reports: To request an Extended Forward Contract Report, the Relevant Party must notify the ECVAA, who will issue the report within two hours where the request is received by 3:00pm, on a Business Day.

1.4 Balancing and Settlement Code Provision

This BSCP should be read in conjunction with the Code and in particular Section V. This BSCP has been produced in accordance with the provisions of the Code. In the event of an inconsistency between the provisions of this BSCP and the Code, the provisions of the Code shall prevail.

1.5 Associated BSC Procedures

This procedure interfaces with BSCP38 Authorisations ~~(or where appropriate BDTP38)~~, in relation to the authorisation of signatures and email addresses for report

requesting. Please note references throughout this document to BSCP38 also relate to the associated BDTP38 where appropriate

1.6   Obligations

Before requesting any electronic data flows using this procedure the Party must have successfully completed the communications testing, the requirements of which are specified in Section O of the Code.

4 Appendices

4.1 Changes to Individual Reporting Requirements

Form BSCP41/1 or its online equivalent is used by existing Parties or Party Agents to notify the CRA of changes to their reporting requirements, this includes requesting reports that are available to any Party on request as listed in Annex V-1 of the Code. The form or its online equivalent cannot be used to request confidential reports issued to other Parties. In this instance BSCP41/2 or its online equivalent should be used.

The non-shaded areas of BSCP41/1 may be completed by a Party or Party Agent. Forms or their online equivalents should by completed by an authorised signatory in accordance with BSCP38 and sent to the CRA with a copy of the form forwarded to BSCCo for information (where the Self-Service Gateway is not being used).

The report should be specified by report ID and / or name as defined in the interface specification documents, and if applicable, the version of the report required. Note that a Requesting Party can only specify the versions of its own reports. When receiving other Parties' reports, the versions will be those requested by the other Parties.

Upon receipt the form or its online equivalent is checked and the requirements implemented within 3WD for BSCP41/1.

4.2   Confidential Report Requests

Form BSCP41/2 <u>or its online equivalent</u> is used by a Party or Party Agent to notify the BSCCo of new Reporting requirements relating to confidential reports issued to other Parties or Party Agents. Requests for reports that are listed in Annex V-1 of the Code as being available to any Party on request should be made using BSCP41/1 <u>or its online equivalent</u>. The form <u>or its online equivalent</u> is completed by the Party or Party Agents as appropriate, and must be signed by an authorised signatory in accordance with BSCP38.

After the Party or Party Agent has completed the non-shaded areas of BSCP41/2, specifying the required report(s), the form <u>or its online equivalent</u> is forwarded to the BSCCo for checking. BSCCo then requests permission from the Relevant Parties to release the reports requested, and notifies the CRA as appropriate. The specified reporting requirements are then implemented within 5WD of receipt by the CRA.

BSCP41/2: Confidential Report Requests

PAGE 1 OF 1

Form BSCP41/2 is used by existing Parties or Party Agents to notify BSCCo of new reporting requirements that involve confidential reports of other Parties and therefore require permission of the Relevant Party. These are the reports that are NOT available to any Party on request in Annex V-1 of the Code. To stop receiving a confidential report of another Party Form BSCP41/1 should be used.
