From MDD Co-ordinator
Purpose For information

Issue with Market Domain Data (MDD) Version 280

Following investigation, ELEXON have noted that MDD version 280 contained a file error due to the inclusion of three erroneous GSP Group Ids in the Average Fraction of Yearly Consumption (AFYC) Set - for Change Request M3282.

This seems to have affected the successful loading of this file for some BSC Party Agents.

A fix has been implemented and MDD will be republished as an additional MDD version (281) today, 18 March 2019, with a Go Live Date 20 March 2019.

ELEXON has amended the MDD Release Schedule for the remainder of the year due to the publishing of an additional version– the only change is to the MDD Version Numbers - all other dates remain unchanged.

The full MDD Release Schedule with changes is now available on the [MDD Release Schedule page](#) of the ELEXON website.

Please note that changes to the MDD Release Schedule are effective immediately.

If you have any queries loading V281, please email the BSC Service Desk bscservicedesk@cgi.com
