Implementation of the November 2019 Release

What is the purpose of this Circular?

This Release Circular confirms the changes to Code Subsidiary Documents (CSDs) that we will implement for the November 2019 BSC Release ('the Release') on 07 November 2019.

What changes are delivered by the Release?

The table below shows the changes to be implemented on 7 November 2019.

Change Reference	Title
P386	Corrections to P344 legal text
P387	Allowing email communications for the BSC Panel Elections process
P389	Resolution of Capacity Market and Balancing Mechanism registration conflict

How will the changes affect me?

- **P386** corrects the errors in the P344 legal text as well as provide clarification when the WA and TERRE product goes live, and all BSC obligations become active. This modification does not impact any BSC Party or Party Agents. There is no impact on BSC Systems.
- **P387** amends the Balancing and Settlement Code (BSC) Panel Elections process to allow communications between parties via email as well as other methods to be approved by the BSC Panel on a case-by-case basis. This modification does not impact any BSC Party or Party Agents. There is no impact on BSC Systems.
- **P389** deletes BSC Section K3.1.8 (b). This will remove conflict and ambiguity between the BSC and Capacity Market rules without affecting either. This modification impacts **Capacity Market Participants (Capacity Providers)** and **Suppliers**.

Where can I find more information on November 2019 Release?

For more details related to the Release, please see the [November 2019 Release webpage](#).

In Appendix A below, we have listed the amended CSDs and other CIs impacted by each change proposal in this Release.

We will update the BSC Baseline Statement and the new versions of the documents will be available to download from the BSC and Related Documents page of the website from **07 November 2019**.
